

Non-stop expansion for the GLS Network!

GLS never stops: we invest, innovate, and expand — in Italy and around the world. Every day, we connect businesses and customers across more than **40 countries**, with services tailored to the needs of shippers. We're present in nearly all of **Europe**, in **Canada**, and on the **U.S. West Coast**, with a network that ensures widespread coverage, flexibility, and reliability.

In Italy, we operate over **160 Depots**, **13 Hubs**, and **more than 8,000 GLS Points**. In recent years, we've strengthened our network with larger facilities, cutting-edge sorting systems, and solutions that enhance both security and logistics efficiency.

Key projects include:

- The new **Verona Hub**, which also houses the operational headquarters
- The **Fiano Romano Hub**, one of the most

automated in the network.

We also have major updates on the international front:

- In **Spain** and **Hungary**, we've entered the world of e-commerce fulfillment with **e-Log** and **iLogistic**
- In **Greece**, we've invested in **ACS**, a local market leader
- In **China**, we've partnered with **SF**, a top player in integrated logistics
- And soon... **direct shipments between the USA and Europe**, thanks to the integration of GLS US services with the European network!

Our goal remains the same: to be a trusted partner for businesses looking to grow and ship without borders.

Always by your side, wherever you are.
